Although it may not cover a multitude of failings, it does, if rightly managed, root up and enrich the earth. To the working farmer, capital invested in its shares, and their operations, returns the best dividends; besides, while he directs its management, he is sure of no false or fraudulent issues, and if he doubles his shares he is not compelled to do it in order to save his old ones, but does it with the assurance of increasing his capital at the same time without an increase of his debt, or scarcely of an increase of cost in cultivation. Deep cultivation is the order of the day, but so managed as to pulverize and mix the soil, by a succession of plowings, as the end, to make a deep rich soil, which will afford a supply of food as well as drink, as the roots of plants descend. The field selected for the trial this day, was well adapted for a trial of skill and workmanship. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
