THE BIRTH OF THE HOSPITAL IN THE BYZANTINE EMPIRE

The Johns Hopkins University Press June 1997, 1997. Paper Back. Book Condition: New. Classified on its back cover by the heading "History of Medicine," The Birth of the Hospital in the Byzantine Empire is an excellent synthesis of the way in which Hellenic culture, city environment, the Christian church, monasticism, Roman law, imperial bureaucracy, and the medical profession participated in the formation and development of Byzantine hospitals. Depending primarily on the Typikon of the Pantokrator Monastery in Constantinople for its...

Reviews

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.
