Excerpt from Metallurgy and Wheels, the Story of Men, Metals and Motors Reading through the General Motors Silver Anniversary number, I ask myself how many know of the important part played by metallurgy in making possible today's automobile - a vehicle that runs 50,000 to 100,000 miles under the most trying conditions of rough handling and speed without the failure of a part? Do you know. . That the first metallurgical laboratories for the microscopic study and control of steel, and its heat treatment, for the General Motors Corp., were put under way in 1911 by Carl Zimmerschied, later president of Chevrolet? . That many of the men, now big in the industry, then laughed at us for looking at steel through a glass? . That microphotos which showed the grain structure of the steel were derided as looking like the picture of a cookie? . That when Bill Woodside told an engineer in one of the early automobile companies that he had heat treated a set of steering knuckles and arms to put in his...
