A good, fulfilling session of warm up exercises will make sure that the body does not go into the energy-demanding phase of an exercise or workout too swiftly. There will be a gradual increase in your heart rate, which will steadily increase the flow of blood in your muscles, and other parts of the body, preparing you both physically and mentally for an injury free exercise. The importance of a workout can be compared simply to the analogy of a car being driven in cold weather; what people tend to do is, allow their cars to warm up before picking up high speeds. The same principle, in a slightly modified sense, applies to a workout. For a strenuous and demanding workout, its best to physically prepare yourself, by steadily increasing the body s temperature with patience. By giving your body a nice warm up with many of the techniques like jogging, walking, etc., you are in fact improving blood circulation within different joints, muscles, and tendons, much like oiling...
