*It is one of my personal favorite book. It is written in easy terms and never hard to understand. It's been designed in an exceedingly easy way and it is only after I finished reading this publication by which in fact changed me, change the way I think.*

Kate Hale isnt excited to end her first month as an investigative actuary in Accidental Death Predications on probation. So, when her boss farms her out as a consultant to a private Love Predictions company to "give her a break," Kate fears that her days at her dream job are numbered. But the new case offers an interesting puzzle. Hundreds of customers hoping for the names of their true loves have been mistakenly paired with the recently deceased. Its Kates chance to prove she can solve the unsolvable, but her client is more interested in preventing the problem from reoccurring than uncovering the mystery. At least her new case doesnt require Ian Beckers assistance. Shes not interested in his type of rogue investigative work and the trouble it brings. When he s not breaking and entering or ignoring procedure, he insists on discussing their unresolved private matter after she volunteered to be his temporary pack mate.Except Becker manages to bring the trouble right to her doorstep anyway.
