NEW TRENDS IN DISCRETE AND COMPUTATIONAL GEOMETRY

Book Condition: New. Publisher/Verlag: Springer, Berlin | Discrete and computational geometry are two fields which in recent years have benefitted from the interaction between mathematics and computer science. The results are applicable in areas such as motion planning, robotics, scene analysis, and computer aided design. The book consists of twelve chapters summarizing the most recent results and methods in discrete and computational geometry. All authors are well-known experts in these fields. They give concise and self-contained surveys of the most...
