Can the eurozones emergence from crisis turn into a real economic recovery and a new vision for Europes future Or is Europe heading for a lost decade in terms of growth and a rise in old style nationalism Kemal Dervi and Jacques Mistral have assembled an international group of economic analysts who provide perspectives on the most audacious supranational governance experiment in history. Will the crisis mark the end of the dream of ever closer union or lead to a renewed impetus to integrate, perhaps taking novel forms Among the key issues explored are the Onset, evolution, and ramifications of the euro crisis from the perspective of three countries especially hard hit Greece, Italy, and Spain. Concerns, priorities, and issues in France and Germany, the couple that has so far always driven European integration. Effects and lessons in two key policy areas: banking union and social policies.
