Parle 93 Parallel Architectures and Languages Europe: 5th International Parle Conference, Munich, Germany, June 14-17, 1993. Proceedings

By -

Springer. Paperback. Book Condition: New. Paperback. 778 pages. Dimensions: 9.2in. x 6.0in. x 1.4in.Parallel processing offers a solution to the problem of providing the processing power necessary to help understand and master the complexity of natural phenomena and engineering structures. By taking several basic processing devices and connecting them together the potential exists of achieving a performance many times that of an individual device. However, building parallel application programs is today recognized as a highly complex activity requiring specialist skills and in-depth knowledge. PARLE is an international, European based conference which focuses on the parallel processing subdomain of informatics and information technology. It is intended to become THE European forum for interchange between experts in the parallel processing domain and to attract both industrial and academic participants with a technical programme designedto provide a balance between theory and practice. This volume contains the proceedings of PARLE 93. The PARLE conference came into existence in 1987 as an initiative from the ESPRIT I programme and the format was revised in 199192. PARLE 93 is the second conference with the new format and was held in Munich. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
