Summary: "Global Health Watch 3, like the previous editions of the Watch, provides us with compelling evidence about all that is wrong with the governance of health care systems across the world. At the same time it also provides us with hope, in the many stories about what can be done and what is being done. The challenge before us is to act decisively on the evidence provided." - Dr. Hafden Mahler former Director General of World Health Organization "Global Health Watch 3" provides the thorough and provoking overview of Global Health issues that we have come to expect from the series. GHW-3, surpassing its forerunners, masterfully addresses the relationship among health, health inequalities and their social determinants with exceptional scientific rigor, providing us with an indispensable reference for academics, activists, policy-makers, leaders, government officials, and students. Each section in the book objectively describes and supports the facts, while also unmasking the underlying processes, laying out new paths, and evaluating proposals. Reading the GHW-3 is a necessary step..."
